SUBJECT INDEX TO VOLUME 20

A

Absorption
  of drugs, effect of saline cathartics on, 231-233
  of inorganic sulfate form orally administered magnesium sulfate, 107-114
Abuse
  of cinnamedrine, potential for, 93-99
  of metronidazole/alcohol, 509-515
Acebutolol, effects of intoxication by, 69-77
Acetaminophen
  limitations of assays for, 19-22
  quantitation methods for, for small hospitals, 1-17
  See also Phenolic drugs
Adenosine, regulatory function of (book review), 401-402
Aerosol, containing trichloroethane, chest pain and hypoxemia in inhalation of, 333-341
Alcohol
  treatment of cardiotoxic effects of, using vitamin E, in mice, 319-331
  See also Metronidazole/alcohol
Alcohols, effect of on measurement of serum osmolality, 115-132
Alkaloids. See Veratrum alkaloids
Amiodarone, effect of overdose of, 181-186
Amoxapine, pharmacokinetic profile of, 101-105
Amyl nitrate, cellular immunotoxicity of, 421-449
Antibiotics
  in obstetrics and gynecology (book review), 397-399
  See also Cefaclor
Anticonvulsants. See Primidone
Antidepressants. See Maprotiline; Mianserin; Nomifensine
Antidotes, for bismuth intoxication, use of chelating agents as, in mice, 159-165
Apomorphine, emetic mechanism of, 215-223
Axdendin®. See Amoxapine

B

Baclofen, effects of overdose of, 59-68
Bismuth, use of chelating agents as antidotes for intoxication by, in mice, 159-165
β-Blockers. See Acebutolol
Blood
  concentrations of glutethimide, meprobamate and methylprylon in, in fatal and nonfatal intoxications, 133-145
  concentrations of isopropanol in, following ingestion, 497-507
  long term study of lead in, in lead workers, 475-486

Body fluids, concentration of chlordane in following fatal ingestion of, 167-174
Bonded phase adsorption (BPA), with TLC, conformation of enzyme immunoassay for cannabinoid using, 465-473
Brain damage, induced by sodium monofluoroacetate, determination of by computed tomography, 85-92

C

Calcium disodium ethylenediamine tetraacetate (CaEDTA), lead mobilized by, long term study of in lead workers, 475-486
Calorimetric tests, use of for identification of drugs in overdosed patients, 23-46
Cannabinoid, conformation of enzyme immunoassay for, using bonded phase adsorption with TLC, 465-473
Cardiotoxicity
  of alcohol, treatment of using Vitamin E, in mice, 319-331
  induced by maprotiline, mianserin and nomifensine, in rabbits, 255-269
Cathartic agents, effect of on gastrointestinal tract in treatment of toxic ingestion, 199-253
Cefaclor, cholestatic jaundice and hematuria due to hypersensitivity to, 79-84
Chelating agents, use of for antidotes for bismuth intoxication, in mice, 159-165
Chemotherapeutic agents. See Chlorambucil
Chest pain, in inhalation of aerosol containing trichloroethane, 333-341
Chlorambucil, acute renal failure and seizures in overdose of, 361-365
Chlordane
  concentrations of in body tissues and fluids in fatal ingestion of, 167-174
  physiological distribution and elimination of, in ingestion of, 291-306
Chloroquine, effect of diazepam on toxicity of, in rats, 271-279
Cholestatic jaundice, in hypersensitivity to cefaclor, 79-84
Chromatography. See Gas chromatography (GC); Gas chromatography/mass spectrometry (GC/MS); Thin layer chromatography (TLC)
Cinnamedrine, potential for abuse of, 93-99
Coma, treatment of following overdose of primidone, 307-318
Congenital deformities, in swine, induced by Nicotiana glauca, 47-58
Crystalluria, treatment of in overdose of primidone, 307-318
Cyclobenzaprine, effect of overdose of, 281-288

D

Diabetic ketoacidosis, in parathion poisoning, 381-385
Diagnostic significance, of internuclear opthalmoplegia in toxic coma, 373-379
Diazepam, effect of on toxicity of chloroquine, in rats, 271-279
Diquat, hemoperfusion in fatal ingestion of, 405-420
Drugs
  effect of saline cathartics on absorption on, 231-233
  identification of in overdosed patients, 23-46
  postabsorptive elimination of, from small intestine, 234-237

E

Elimination
  of chlordane, following ingestion, 291-306
  of phenobarbital in rats, effect of gut lavage on, 147-157
  postabsorptive, of drugs from small intestine, 234-237
Elimination therapy, in thallium poisoning, 451-463
Emetic agents, effect of on gastrointestinal tract in treatment of toxic ingestion, 199-253
Enzyme immunoassay (EMIT)
  for cannabinoid conformation of using bonded phase adsorption with TLC, 465-473
  use of for quantitation of acetaminophen, 1-17

F

Ferric reduction, use of for quantitation of acetaminophen, 1-17
Fetid breath, in noxythiolin therapy, 387-392
Flexeril®. See Cyclobenzaprine
Formaldehyde, toxicology, epidemiology, and mechanism of (book review), 393-396

G

Gas chromatography (GC), use of for identification of drugs in overdosed patients, 23-46
Gas chromatography/mass spectrometry (GC/MS), use of for identification of drugs in overdosed patients, 23-46
Gastric smooth muscle, activity of during vomiting, 205-207
Gastrointestinal tract, effect of emetic and cathartic agents on, in treatment of toxic ingestion, 199-253
GC. See Gas chromatography (GC)
Glutethimide, blood concentrations of, in fatal and nonfatal intoxications, 133-145
Gut lavage, effect of on elimination of phenobarbital, in rats, 147-157

H

Hematuria, in hypersensitivity to cefaclor, 79-84
Hemoperfusion
  in fatal ingestion of diquat, 405-420
  in mercury poisoning, 187-189
Hemorrhage, in diquat poisoning, 405-420
Herbicides. See Diquat
Hospitals, small, quantitation methods for acetaminophen in, 1-17
Hypersensitivity, to cefaclor, cholestatic jaundice and hematuria in, 79-84
Hypoxemia, in inhalation of aerosol containing trichloroethane, 333-341

I

Iatrogenic diarrhea. See Gut lavage
Immunotoxicity, cellular, of amyl nitrate, 421-449
Ingestion
  fatal, of diquat, hemoperfusion following, 405-420
  of isopropanol, blood concentrations and clinical findings in, 497-507
  toxic, effect of emetic and cathartic agents on gastrointestinal tract in treatment of, 199-253
Inhalation
  of aerosol containing trichloroethane, chest pain and hypoxemia following, 333-341
  paraquat poisoning by, 191-193, 195-196

Insecticides. See Chlordane
Internuclear ophthalmoplegia, in toxic coma, frequency, prognostic value, and diagnostic significance of, 373-379
Intoxication
  acebutolol, effects of, 69-77
  baclofen, effects of, 59-68
  bismuth, use of chelating agents as antidote for, in mice, 159-165
  fatal and non fatal, blood concentrations of glutethimide, methylprylon, and meprobamate in, 133-145
Ipecac, syrup of, emetic mechanism of, 215-223
Isopropanol, blood concentrations and clinical findings in ingestion of, 497-507

L

Lavage. See Gut lavage; Whole intestinal lavage
Lead, blood and CaEDTA mobilized, long term study of in lead workers, 475-486
Lunar cycle, calls to poison center and, 475-486

M

Magnesium sulfate, orally administered, absorption of inorganic sulfate from, 107-114
Maprotiline, cardiovascular toxicity induced by, in rabbits, 255-269
Mass spectrometry. See Gas chromatography/mass spectrometry (GC/MS)
Meprobamate, blood concentrations of, in fatal and nonfatal intoxications, 133-145
Mercury poisoning, hemoperfusion in, 187-189
Methadone, rhabdomyolysis and acute myoglobinuric renal failure in overdose of, 353-360
Methylprylon, blood concentrations of, in fatal and nonfatal intoxications, 133-145
Metronidazole/alcohol, abuse of, 509-515
Mianserin, cardiovascular toxicity induced by, in rabbits, 255-269
Mice
  use of chelating agents as antidote for bismuth intoxication in, 159-165
  use of vitamin E in treatment of cardiotoxic effects of alcohol in, 319-331
Midol. See Cinnamedrine
Motility, gastrointestinal, during vomiting, 202-205
MS. See Gas chromatography/mass spectrometry (GC/MS)
Muscle relaxant. See Cyclobenzaprine
Myoglobinuric renal failure. See Renal failure, myoglobinuric

N

Nephrotoxicity, symposium on (announcement), 403-404
Neuronal depressants. See Baclofen
Nicotiana glauca, congenital deformities in swine induced by, 47-58
Nitration, use of for quantitation of acetaminophen, 1-17
Nomifensine, cardiovascular toxicity induced by, in rabbits, 255-269
Noxythiolin, fetid breath in therapy using, 387-392

O

Occupational exposure. See Lead; Woodworkers

Occupational Safety and Health Conference (announcement), 197
Osmolality. See Serum osmolality
Overdose
  of amiodarone, effect of, 181-186
  of chlorambucil, acute renal failure and seizures in, 361-365
  of cyclobenzaprine, effect of, 281-288
  of methadone, rhabdomyolysis and acute myoglobinuric renal failure, 353-360
  of primidone, treatment of coma and crystalluria in, 307-318
  of thyroxine, plasmapheresis in, 517-520

P

Paraquat poisoning, by inhalation, 191-193, 195-196
Parathion poisoning, diabetic ketoacidosis in, 381-385
Pentachlorophenol, persistence of in exposed woodworkers, 343-352
Pesticides. See Sodium monofluoroacetate (SMFA)
Phenobarbital, effect of gut lavage on elimination of in rats, 147-157
Phenolic drugs, use of magnesium sulfate for systemic depletion of sulfate caused by, 107-114
Physiological distribution, of chlordane, following ingestion, 291-306
Plasmapheresis, in thyroxine overdose, 517-520
Poison center, calls to, related to lunar cycle, 475-486
Poisonings and acute drug overdose (book review), 289-290
Pontine infarction, in diquat poisoning, 405-420
Primidone, treatment of coma and crystalluria in overdose of, 307-318
Prognostic value, of internuclear ophthalmoplegia in toxic coma, 373-379

Q

Quinidine, sicca syndrome induced by, 367-371

R

Rats
  effect of diazepam on toxicity of chloroquine in, 271-269
  effect of gut lavage on elimination of phenobarbital in, 147-157
Renal failure
  acute, in chlorambucil overdose, 361-365
  myoglobinuric, methadone overdose, 353-360
Rhabdomyolysis, in methadone overdose, 353-360

S

Saline cathartics
  effect of on drug absorption, 231-233
  effect of on gastrointestinal tract, 223-231
Seizures, associated with chlorambucil overdose, 361-365
Serum osmolality, effect of alcohols and solvents on measurement of, 115-132
Sicca syndrome, induced by quinidine, 367-371
Small intestine
  postabsorptive drug elimination from, 234-237
  response of during vomiting, 207-217
SMFA. See Sodium monofluoroacetate (SMFA)

Sneezing powders, danger of veratrum alkaloids in, 175-179
Sodium monofluoroacetate (SMFA), brain damage induced by, determination of by computed tomography, 85-92
Solvents, effect of on measurement of serum osmolality, 115-132
Spectrometry. See Gas chromatography/mass spectrometry (GC/MS)
Spectrophotometry. See Ultraviolet (UV) spectrophotometry
Sulfate, inorganic, absorption of from orally administered magnesium sulfate, 107-114
Swine, congenital deformities in, induced by Nicotiana glauca, 47-58

T

Tetrachlorophenol, persistence of in exposed woodworkers, 343-352
Thallium poisoning, elimination therapy following, 451-463
Thin layer chromatography (TLC)
  conformation of enzyme immunoassay for cannabinoid using bonded phase adsorption with, 465-473
  use of for identification of drugs in overdosed patients, 23-46
Thyroxine, plasmapheresis in overdose of, 517-520
Tissues, concentrations of chlordane in, in fatal ingestion of, 167-174
TLC. See Thin layer chromatography (TLC)
Tobacco. See Nicotiana glauca
α Tocopherol. See Vitamin E
Tomography, computed, determination of brain damage induced by sodium monofluoroacetate by, 85-92
Toxic coma, frequency, prognostic value, and diagnostic significance of internuclear ophthalmoplegia in, 373-379
Trichloroethane, aerosol product containing, chest pain and hypoxemia following inhalation of, 333-341
Trichomonoacides. See Metronidazole/alcohol
Tricyclic antidepressant. See Amoxapine

U

Ultraviolet (UV) spectrophotometry, use of for identification of drugs in overdosed patients, 23-46

V

Veratrum alkaloids, danger of, in sneezing powders, 175-179
Vitamin E, use of in treatment of cardiotoxic effects of alcohol, in mice, 319-331
Vomiting, gastrointestinal motility, gastric smooth muscle activity, and response of small intestine during, 202-215

W

Waterproofing. See Trichloroethane
Whole intestinal lavage, use of for gastrointestinal decontamination, 233-234
Woodworkers, persistence of tetrachlorophenol and pentachlorophenol in, 343-352

J. TOXICOL.-CLIN. TOXICOL., 20(5), 531-535 (1983)

COLLECTIVE CONTENTS TO VOLUME 20

Volume 20, Number 1, 1983

An Evaluation of Common Methods for Acetaminophen Quantitation for Small Hospitals 1
R. R. Bridges, D. W. Kinniburgh, B. J. Keehn, and T. A. Jennison

Editorial: Limitations of Acetaminophen Assays 19
J. Osterloh

A Systematic Laboratory Approach for the Identification of Drugs in Presumably Poisoned (Overdosed) Patients 23
J. Vasiliades

Congenital Deformities in Swine Induced by Wild Tree Tobacco, *Nicotiana glauca* 47
R. F. Keeler and M. W. Crowe

Baclofen (Lioresal ^{R}) Intoxication Report of 4 Cases and Review of the Literature 59
A. Haubenstock, K. Hruby, U. Jäger, and K. Lenz

A Case of Acebutolol Intoxication 69
B. Sangster, D. de Wildt, A. van Dijk, and S. Klein

Cholestatic Jaundice and Hematuria Due to Hypersensitivity to Cefaclor in a Child 79
M. Bosio

Computed Tomography Demonstration of Brain Damage Due to Acute Sodium Monofluoroacetate Poisoning 85
J. Trabes, N. Rason, and E. Avrahami

Cinnamedrine: Potential for Abuse 93
K. W. Fellows and A. J. Giannini

Letter to the Editor: Amoxapine Overdose: Case Report and Pharmacokinetic Profile 101
L. M. Lopez and W. L. Russell

Volume 20, Number 2, 1983

Absorption of Sulfate from Orally Administered Magnesium Sulfate in Man 107
M. E. Morris and G. Levy

Effect of Alcohols and Selected Solvents on Serum Osmolality Measurements 115
M. E. Lund, W. Banner, Jr., P R. Finley, L. Burnham, and J. A. Dye

Interpretation of Blood Glutethimide, Meprobamate, and Methyprylon Concentrations in Nonfatal and Fatal Intoxications Involving a Single Drug 133
D. N. Bailey and R. F. Shaw

Effect of Gut Lavage on Phenobarbital Elimination in Rats 147
K. Lenz, R. Morz, G. Kleinberger, H. Pointer, W. Druml, and A. Laggner

Antidotes for Acute Bismuth Intoxication 159
M. A. Basinger, M. M. Jones, and S. A. McCroskey

A Fatal Chlordane Poisoning 167
F. W. Kutz, S. C. Strassman, J. F. Sperling, B. T. Cook, I. Sunshine, and J. Tessari

Veratrum Alkaloids in Sneezing-Powder a Potential Danger 175
A. Fogh, P. Kulling, and E. Wickstrom

Acute Overdosage of Amiodarone in a Suicide Attempt 181
M. Bonati, V. D.'Aranno, F. Galletti, M. T. Fortunati, and G. Tognoni

Letter to the Editor: Hemoperfusion in Mercury Poisoning. 187
T. J. Pellinen, K. Karjalainen, and E. J. Haapanen

Letter to the Editor: The Myth of Paraquat Inhalation as a Route for Human Poisoning 191
J. K. Howard

Response by the Authors 195
C. Bismuth

Announcement 197

Volume 20, Number 3, 1983

Editorial iii

Effects of Emetic and Cathartic Agents on the Gastrointestinal Tract and the Treatment of Toxic Ingestion 199
J. J. Stewart

Relative Acute Cardiovascular Toxicity Induced by Maprotiline, Mianserin and Nomifensine in Conscious Rabbits. 255
J. P. Desager and C. Harvengt

Experimental Assessment of the Protective Activity of Diazepam on the Acute Toxicity of Chloroquine 271
J. Crouzette, E. Vicaut, S. Palombo, C. Girre, and P. E. Fournier

Cyclobenzaprine Overdosage 281
C. H. Linden, J. C. Mitchiner, R. D. Lindzon, and B. H. Rumack

Book Review 289

Volume 20, Number 4, 1983

Acute Chlordane Intoxication 291
L. S. Olanoff, W. J. Bristow, J. Colcolough, and J. R. Reigart

Coma and Crystalluria: A Massive Primidone Intoxication Treated with Haemoperfusion 307
A. N. P. van Heijst, W. de Jong, R. Seldenrijk, and A. van Dijk

Amelioration of Cardiotoxic Effects of Alcohol by Vitamin E 319
J. E. Redetzki, K. E. Griswold, C. Nopajaroonsri, and H. M. Redetzki

Chest Pain and Hypoxemia from Inhalation of a Trichloroethane Aerosol Product 333
O. F. Woo, K. M. Healey, D. Sheppard, and T. G. Tong

Persistence of Tetrachlorophenol and Pentachlorophenol in Exposed Woodworkers 343
D. A. Kalman and S. W. Horstman

Rhabdomyolysis and Acute Myoglobinuric Renal Failure Associated with Methadone Intoxication. 353
A. A. Nanji and J. D. Filipenko

Acute Renal Failure and Seizures Associated with Chlorambucil Overdose 361
D. W. Blank, A. A. Nanji, D. H. Schreiber, C. Hudman, and H. D. Sanders

Quinidine Induced Sicca Syndrome. 367
J. E. Naschitz and D. Yeshurun

Internuclear Ophthalmoplegia in Patients with Toxic Coma Frequency, Prognostic Value, Diagnostic Significance. 373
L. G. Barret, F. M. Vincent, P. L. Arsac, J.-L. E. Debru, and J. R. Faure

Organophosphate Poisoning Presenting as Diabetic Keotacidosis. 381
Z. Zadik, Y. Blachar, Y. Barak, and S. Levin

Letter to the Editor: Fetid Breath after Noxythiolin Therapy 387
W. K. Stewart

Book Reviews. 393

Announcements 403

Volume 20, Number 5, 1983

Hemoperfusion in a Child Who Ingested Diquat and Died from Pontine Infarction and Hemorrhage 405
